

MyHana Internet Banking Registration

Registration

MyHana Internet Banking facility can be used by all KEB Hana Bank customers. To use MyHana Internet Banking, the customer must be registered to MyHana Internet Banking facility.

For additional security purposes, a debit card PIN or transfer password and 6 digit token numbers must be inputted for every transaction on MyHana Internet Banking.

To start transaction on MyHana Internet Banking, customer must visit the nearest branch to complete the registration form.

Registration on MyHana Internet Banking

For customer who wants to apply for MyHana Internet Banking, the customer must visit the nearest branch and fill the registration form for MyHana Internet Banking.

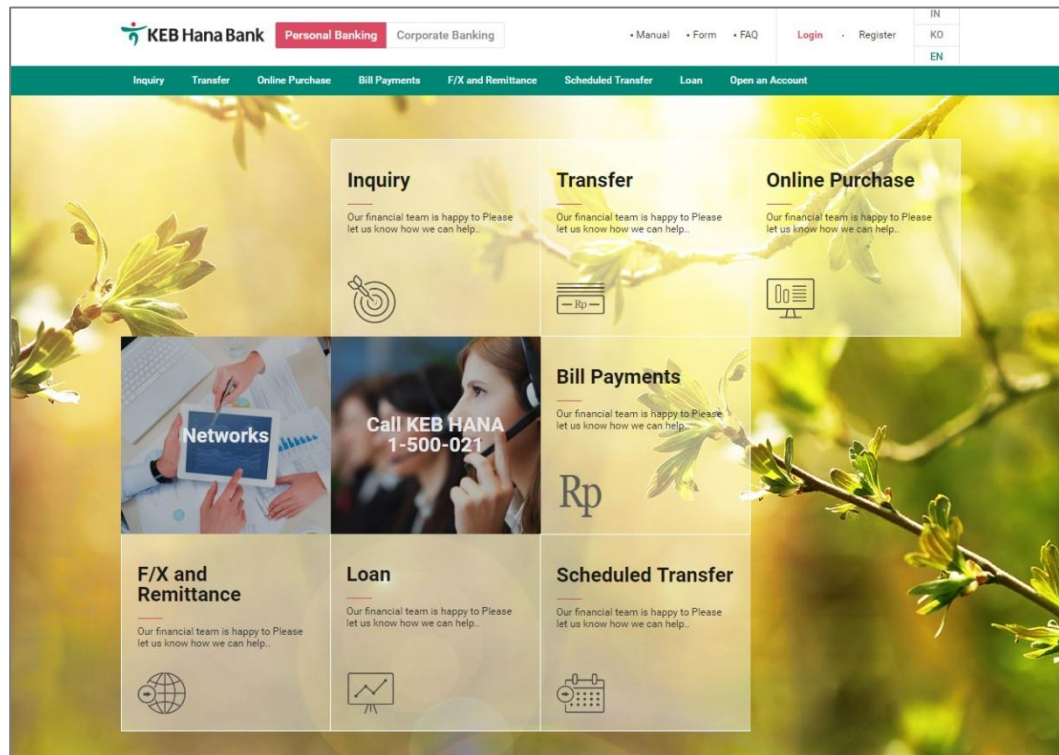

When customer register at customer service, customer can choose type of user id :

- a. Permanent User ID : User doesn't need to register the user id. Permanent user id is created by system, consist of combination name and phonenummer. On MyHana website, customer only need to create the password.
- b. Temporary User ID : User need to register the user id. Customer can create their own User ID & password on MyHana website (<https://www.myhana.co.id>).

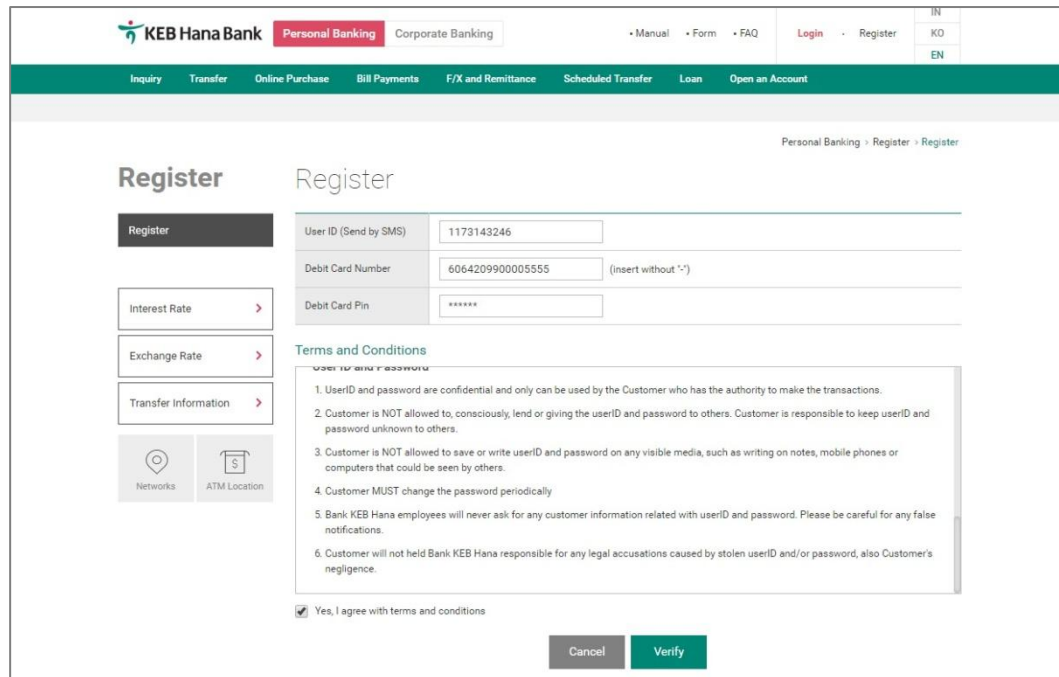

After completed the registration form, customer will receive temporary User ID or Permanent User ID by SMS.

Customer who already has temporary User ID must immediately register on MyHana website, because given temporary User ID will expired within 1 week (7 calendar days).

1. Go to MyHana website.

2. Click [Register] on the upper right side of the website.
3. Input the temporary User ID /Permanent User ID acquired after registration on branch.
4. Input debit card number and debit card PIN.
5. Read the terms and conditions displayed on the screen, then click [Verify] to continue the registration.
